

Safal Partners is building “America’s K to Career Continuum,” creating stronger classrooms, workplaces, and communities to meet the opportunities of an AI-driven, 21st century economy.

Safal Partners is a Texas-based small business and nationally recognized consulting firm dedicated to improving outcomes for students and the American workforce through innovative solutions and exceptional client service. One of our key focus areas is work-based learning.

U.S. Department of Labor (DOL) National Industry Intermediary

Safal Partners is a DOL National Industry Intermediary leading Registered Apprenticeship program development with employers, educational institutions, and training organizations nationwide for cyber, IT, and AI occupations.

Through our DOL contract we can **provide your organization with high-caliber expertise and ongoing program support at no cost**, including:

- **Expert technical assistance** for building, launching, expanding, and sustaining Registered Apprenticeship programs.
- **Specialized one-to-one support**, including assistance with developing customized training plans for your workforce and identifying strategic program partners.
- **Incentive funding** and information on other federal, state, and local resources.
- **Guidance on program marketing** and pipelines to available potential candidates.

Let us help you customize, expand or modernize a Registered Apprenticeship program to train new hires or upskill current workers in Cyber, IT, AI and Operational Tech occupations, including:

- Cyber Defense Analyst
- Cybersecurity Support Technician
- Data Analyst
- Database Architect
- IT Generalist
- Network Support Technician
- Penetration Tester
- Prompt Engineer
- SOC Analyst
- Software Developer
- ...and many, many more
